EDUCATION

TECHNO ENGINEERING COLLEGE BANIPUR

B.TECH IN CSE

Expected August 2024 | Kolkata, India
CGPA: 9.1 up to current semester

SUDHIR MEMORIAL INSTITUTE

CBSE 10+2 WITH PCM AND

COMPUTER APPLICATIONS

July 2020 | Kolkata, India

CYGNET DAY SCHOOL

ICSE 10 WITH COMPUTER

APPLICATIONS

May 2018 | Bongaon, India

SKILLS

Proficient

Java • Python • HTML

CSS • JavaScript • React JS • Django •

Bootstrap • GitHub • MS Office

Intermediate

C • C++ • SQL • AWS • GCP • Tailwind

CSS • UI/UX • Linux ENV • DevOps

Beginner

TypeScript • Android • MongoDB • MVC

• REST Architecture

COURSEWORK

Technical Support Fundamentals

The Bits and Bytes of Computer

Networking

Operating Systems and You: Becoming a
Power User

System Administration and IT

Infrastructure Services

IT Security: Defense against the digital
dark arts

Introduction To Internet Of Things

The Joy of Computing using Python

Ethics in Engineering Practice

Soft Skill Development

SUMMARY

Motivated final-year Computer Science and Engineering student with a strong academic record (9+ CGPA). Experienced in open source projects and currently interning in web development. Skilled in problem-solving and teamwork.

EXPERIENCE

CELEBAL TECHNOLOGIES | WEB DEVELOPMENT INTERN

June 2023 - Present | Remote Work

- I am actively participating in a 3-month web development internship specializing in React.js and receiving comprehensive training in React.js.
- Contributing to the development of real-world projects, including an e-commerce application.

OPEN SOURCE CONTRIBUTIONS

HELFWAVE | REACT.JS FRONTEND DEVELOPER

Mar 2023 - May 2023 | Remote Work

- Implemented new features, improved user experience, and ensured code quality to enhance the functionality of a React.js frontend with TypeScript.
- Integrated a comprehensive icon package from NPM, replacing outdated icons project-wide for a visually appealing and consistent UI.
- I collaborated with a remote team in Germany, merging two pull requests into the codebase and earning recognition from the team lead for valuable contributions to a healthcare management project.

FACEBOOK | OPEN SOURCE CONTRIBUTOR

April 2023 - April 2023 | Remote Location

- I contributed to open-source projects, Lexical - a JavaScript web text-editor framework developed by Facebook, known for its reliability, accessibility, and performance.
- I addressed the code block line numbering issue by creating a comprehensive pull request. The Facebook team recognized and appreciated my contribution.

PROJECT

ONLINE EXAM SYSTEM | FULL STACK PROJECT

March 2022 - June 2022

I developed a full-stack online exam application using React.js in the frontend, Node.js with Express.js in the backend, and Firebase as the database. The application caters to two user types: institutes, who create exams, and students, who take the exams. Institutes can generate exam questions, and students can view their marks on personalized dashboards accessible to both institutes and students.
